AND FATHER THOUGHT HE WAS STUDYING THE DEAD LANGUAGES.

SIR THOMAS VESEY NAMED LORD MAYOR

Chosen by Livery Companies Who Represent the Wealthiest and Most Influential Citizens of London.

London, Sept. 28.—In accordance with time honored precedent of the Livery Companies of the city of London met in convention in Common Hall at Guildhall today for the election of a Lord Mayor of the city for the coming civic year. Sir John T. Knollys, term expires on November 9. In the ordinary course the election fell on Sir Thomas Vesey Strohm, a wealthy paper manufacturer who has been an alderman of the City of London for thirteen years and was served as senior sheriff in 1901.

Unlike all other great municipalities, London's Lord Mayor is not the choice of the common council or a political clique. He must needs have been elected an alderman of the city and before the ratification of his election by the ratemakers may years before being eligible for the mayoralty. He must have served as sheriff by the election of eight thousand liverymen, representing the wealthiest and most influential citizens. As sheriff he must have had the approval of the king, and to become Lord Mayor he has to appear again before the liverymen and the king, and on Lord Mayor's Day he must visit the Law Courts and before the judges and the recorder of the city review his past history.

The jurisdiction of the Lord Mayor is of course confined to the comparatively narrow limits of the ancient city, whose population nowadays hardly amounts to 50,000. The other 6,000,000 or more citizens of the metropolis are governed by the London County Council, which being a modern institution has acquired none of the pomp and pageantry of the ancient city.

Chicago, Ill., Sept. 28.—Aviator Walter Brookings started from here at 9:20 this morning on his attempt to break a 24 American long distance sustained flight records and fly to Springfield, Ill., 187 miles in air line without landing.

Brookings declared that despite the unfavorable wind which became directly across his course, he expected to make the complete trip in six hours.

Brookings passed over Kenosha, thirteen miles from Chicago at 9:30 and at 9:45 sped over Harvey, 19 miles distant. The aviator flying two thousand feet high and about fifty miles an hour.

Brookings passed over Peotone, Manteno and Tuckey at an average speed of thirty-three miles per hour. Kankakee and Otto were passed and the special had not been sighted. At Askeon, seventy-three miles from Chicago, the car dropped to a thousand feet.

At Gilman Brookings was forced to stop in to earn fuel for oil, thus precluding his making the record for sustained flight as it is but eighty-one miles from Chicago and seventy-five miles from starting point.

The train caught up with him at Gilman and both aviator and cars left at same time, 12:12. Brookings will have an opportunity of winning the Kohlman prize if he completes the trip before Sunday.

At Weedman he was 126 miles on his journey, one mile ahead of the train and flying about five hundred feet above the ground. Ilwaco was passed at 2:30, 143 miles from Chicago.

OPENING DAY OF "THE BIG SHOW"

"MADE IN JANESVILLE" EXHIBITION STARTS TODAY.

GOODS WELL DISPLAYED

Clever Ideas Carried Out in Exhibition of Bower City Products—"Get the New Spirit and Boost."

Thursday, September 29th, will go down in the history of Janesville, Wisconsin, as the day which gave birth to a new spirit in the minds of Janesville and Rock county people.

Thursday, September 29th, a day of sunshine, a day conducive to that spirit which speaks for progress and success, a day so perfect that the man, woman or child who could wander about the business streets of this city and not have that feeling of real pride in this beautiful Bower City and its industrial and retail establishments, certainly is a person "self-satisfied" and narrowed beyond all redemption. And all this because today, September 29th, 1910, is the first day of a three days' exhibition of Janesville-made products.

As mentioned several times before in this paper, this exhibition is one of only a half dozen that have ever been held in this country, and let it be recorded here that there is not a city in the United States but will, in the language of the day, "have to take its hat off to Janesville."

Many of the local manufacturers began and completed their displays yesterday and last night, and if these few are a criterion of what all the displays will be like, this exhibition will surpass any similar "show" that any city can boast of.

Space will not permit our describing all the displays in one issue, but that our readers may have an idea of the attractiveness of them, we will tell of a few each night during this event.

The Rock County Sugar company have a display which shows the process of manufacturing beet sugar from the German imported seeds to clean, snow-white granulated sugar. The Heilm's Food company has a miniature seed grinder and five different kinds of chicken feed to be used at different ages of chickens. This concern is all young men having been established by Mr. Walter Holmes and now conducted by his son, Mr. Neil Holmes. This display should be of great interest to all chicken fanciers.

The Caloric company have a very interesting display in Simpson's window. It carries out the idea that "indulge" can come home from a party and as is the custom, being without a maid, she can by the use of a Caloric fireless stove have her dinner done to a turn and ready to be served. As the sign says, "Caloric cooking is thoroughly good cooking with all the bother and work left out." This company is also giving a free demonstration at the McVicar Bros. store.

A display that will upon the eyes of the sight-seers this week is the one of the Janesville Clothing company. They make jumpers, overalls, corduroy suits, khaki suits, heavy work clothes, cotton shirts, trousers, undershirts, coarse flannel clothes and ship them to every important city in the country.

The Janesville Machine company are showing a riding and walking plow. An adjustable planter is shown that can be adjusted to four or five different seeds; this is an interesting display not only for farmers, but for townpeople.

The Watmore Barber Supply company has a display of talcum powders and toilet waters, besides all the necessities for a barber's use. The windows are in purple and white and are very attractive.

The E. P. Doty company have a display of flour and meals, with many loaves of bread baked from these products. Their trade mark, a blue cross, stands out prominently.

The Strickler Hay Tool company have a display that meant much work and the expenditure of a great deal of money, for they have prepared special hay tools and other products of their factory and the show is one of much interest.

The Lewis Knitting company have a display that ought to impress every resident of Rock county and Janesville. They show union suits in all colors, made from wool to pure silk.

The Hubb Browing company have a very big display that is attracting no end of attention. It shows all their products and all the grains used in the manufacture of their goods.

The Wisconsin Carriage company have two buggies and a handsome sleigh on display, that certainly will make any man think twice before he buys an automobile. Yet to say that is not right for this firm makes the famous "Wisco" auto, a car above par, because it is made right.

The Janesville Bar Wire company have a very instructive and interesting display of their products—barb wire, Apax wire fence, and milks. They have the slogan built of nails, which adds to their show.

The Southern Wisconsin Business College has a very strong display for their school. Typewriters, books, writer-pencils and windows for the pupils are artistically shown.

The Hanson Furniture company has a magnificent dining room suite in the McManis window. It is of solid mahogany and shows a completely furnished dining room, with their table to the fore.

Not Bros., manufacturers of paper boxes, have a display that will surprise many people because so few realize the importance of this growing factory. They have all conceivable shapes and kinds of boxes.

One of the prettiest windows in the city is the Janesville Batten Mill's show. Bolls of cotton and a floor of fluffy cotton with a background of the different colored finished "batts" makes a window of much interest. The "bickins" scattered about the window holding remnants of cotton are not Janesville-made products.

Last but far from least in today's list of manufacturers is the display of the Parker Pen company. Few firms in the country have done more advertising for themselves and for the city in which they are located than this factory, and their display of pens, bringing out strong the "Lucky Curve" selling point, is one that is worth coming miles to see. They show hundreds of pens from the raw rubber cylinder to the finished product, some worth hundreds of dollars; others worth only a couple of dollars.

FINAL SESSIONS OF CONFERENCE

EASTERN CONFERENCE OF LUTHERAN SYNOD ENDS WORK TODAY.

PRESIDENT OF THE SYNOD

Will Deliver Address at Closing Meeting This Evening—Today's Gatherings.

The sixteenth annual meeting of the Eastern Conference of the Lutheran Synod of the North-west will be closed this evening with the vespers service and meeting at St. Peter's church. Already a few of the delegates were planning to leave for their homes on the afternoon trains but the majority will probably remain for the services tonight. At this evening's meeting there will be two addresses: by Rev. Theo. Wollkott of Cedarburg, Wis., on "Holiness of the Parson to the Catechumen," and by Rev. A. J. Reichert of Red Wing, Minn., president of the synod, on "After Confirmation, What?"

Rev. Reichert and Rev. A. C. Andra of Chicago, the western superintendent of missions, were in the city today for the last sessions of the conference. The meetings today were of the conference proper and were largely devoted to addresses by the various pastors present, as any business of importance has been quickly disposed of. There was held a summer school for Sunday school teachers. After the confessional service, which began at 8:30 this morning, the communion service was delivered by Rev. W. F. Rex of the Atwood church, Racine, and Rev. Stockel of Plattville, secretary of the conference, conducted the communion service. Business matters were taken up, including the president's report. Rev. H. K. Gohmert of Kenosha, president of the conference, was unable to be present and Rev. William Eckert of Racine was elected and presented with the president's report. The Epistle for the 19th Sunday after Trinity was read by Rev. Paul H. Roth of Deloit.

The talks this afternoon dealt chiefly with the work in the preparation of candidates for confirmation. Rev. H. K. Gohmert of Madison spoke on "Whom Shall We Choose?" Rev. A. J. Reichert of the Church of the Reformation of Milwaukee, on "Methods of Instruction," and Rev. W. P. Christy of La Crosse, former pastor of the church here, on "What Constitutes Fitness for Confirmation."

"The Land of Luther." Social religious, educational and reformatory systems of the Fatherland were described by Rev. William Eckert of Racine at last evening's meeting of the conference. Rev. and Mrs. Eckert have recently returned from a three months' tour of Europe, the greater part of which was spent in Germany and his views of conditions as they exist in that empire proved most interesting. He spoke first of the military spirit which is prevalent everywhere and contrasts sharply with that of Switzerland. Social position, he declared, was more desired than the possession of wealth and the slums, which are usually found in all the large cities of other countries, are not known in Germany. The school system of the Fatherland was praised, the schools being open nearly the entire year, with a vacation period of about five weeks. One of the admirable features of the instruction of the German scholars, he said, was the pilgrimage and tours taken by teachers and pupils for study purposes. Travelling on foot, by rail, or in carriages, the teachers and children sometimes remain away from school for days, but take their lessons at first hand, detailed information of every place visited being given. Trades and training schools are also numerous.

Among the home for the friendless and other institutions which Rev. and Mrs. Eckert visited and which he spoke of in his talk last evening, was the Hospital, a place where board and lodging were provided at prices ranging in the various institutions to suit the purses of the guests and a homelike and a religious atmosphere.

New Singer —AT— ORPHEUM THEATRE

We have been exceptionally fortunate in securing the services of Miss Helen Ruth for the singing of our illustrated songs. Miss Ruth has a remarkable voice of wide range and sweetness. She will be with us starting Saturday.

Tonight the curtain shows one of the greatest dramas ever written. It is called the Christian. You should see this.

Every day we show two films and we change them twice a day, at matinee and evening, making four films in all each day, more than any other theatre shows.

ORPHEUM THEATRE

Building occupied by F. B. Burton, Successor to Burton & Bleasdale.

Farmers and dairymen all over Rock county use tanks produced by F. B. Burton, and sound their praises highly. Quality in the manufacture and material used is in a large measure due to the success with which these tanks have met. Nothing but the very best of Red Cypress is used in the making and only expert workmen employed.

The excellence of material used and the carefulness with which they are constructed are factors which make for the long life of these tanks. Many tanks that have been in use for years are still giving excellent service and give promise to continue to do so for a number of years to come.

Visitors to the big "Made in Janesville" week will find their exhibit at Taylor Bros. grocery on West Milwaukee St. Besides tanks, there will be pumps, windmills, gasoline engines and several other devices for use on the farm, all of which are made or handled by this firm.

FIFTY THOUSAND WAITS CLAIMANT

FARM HAND EMPLOYED BY JOHN
DECKER NOTIFIED OF GOOD
FORTUNE.

LEFT FOR TEXAS TODAY

Estate of Uncle in Lone Star State to
be His on Proof of Kinship
With Deceased.

After working for twenty years of
his life for small sums as a farm
hand, a day laborer and having to
go from place to place seeking work,
he was suddenly notified that he was
heir to an estate of fifty thousand
dollars. The man who had not been
seen in years seems like a fairy tale
but it actually happened to J. C.
Chile, who for the past four months
has been employed by John Decker,
of Milton avenue for thirty dollars
and his board.

In fact when the latter came
announcing his good fortune Chile was
packing his belongings and about to
seek another place, having completed
his work for Mr. Decker last evening.
The man took his good luck coolly
and instead of seeking another place
left at noon today for Chicago on
route for Waco, Texas, where his
Uncle's property is located.

Chile is thirty-five years of age and
on his way to the depot told an ac-
quaintance that he has worked since
he was fifteen, on farms and as a la-
borer. The deceased uncle, W. C.
Burroughs, went to Texas many years
ago and has prospered. Chile is the
only direct heir and expects to inher-
it the entire fortune which the Waco
attorney estimated was fifty thousand
dollars.

He is a native of Kentucky and
came to the Decker farm from Illinois
where he worked earlier in the sum-
mer. His good fortune came through
an advertisement for his whereabouts
published in the Waco paper which
was sent him by a cousin to whom he
wrote recently telling him he was.
Mr. Chile said that he would claim the
estate, prove his relationship and
then go back to his home in Kentucky
before deciding what to do.

MADAME SCHUMANN- HEINK.

Great Singer at First Congregational
Church, Beloit, Monday Even-
ing, Oct. 3rd.

The world's foremost queen of song,
whose marvelous European triumphs
of the past season are still fresh in
the minds of our people, showed
with royal honors such as no living
prima donna has experienced, has re-
turned to her beloved America, once
more and will delight an audience, at
the First Congregational Church of
Beloit next Monday evening, with her
magnificent powers of artistry, with
the splendor of her magnificent voice
—a voice so truly wonderful in power,
quality and soulful beauty. Yet, it is
not this marvelous organ alone that
charms and overpowers her audience.
It is the combination of a sublime
voice, masterful art, depth, person-
ality and the soul this remarkable wom-
an possesses, which responds to all
and is understood by all.

Schumann-Heink's songs appeal to
the best in man or woman and there
is great and cheering significance in
the phenomenal following won by this
wholesome, genuine Queen of Song.

Janesville Wholesale Company Have Splendid Exhibition of Their Goods

This City Fortunate In Having Such A Firm. Will Have A Special Exhibition Saturday

Enthusiasm has marked the making of every display thus far in the big "Made in Janesville" week. The latest display to be made is under the direction of the Janesville Wholesale Grocery Company in the windows of the Rock County National Bank.

Many of the articles displayed by this firm are goods imported directly and sold here exclusively.

Many dollars worth of imported goods are sold by this company every year. These imported goods are selected with great care for their high quality and general excellence and that they give satisfaction may be judged from the fact that they increase in volume of sales every month.

Besides these imported goods, this company is local sales agent for the

nationally advertised and famous Young Truly brand of soups, beans and coffees. Saturday there will be a special demonstration of these famous goods. Coffee and beans will be served to visitors who attend. This special display will be held at Pond & Bailey's store.

Most often the size of Janesville do not have a wholesale grocery company for the local grocers to depend upon as a source of their supplies, but have to look to outside firms for their food-stuffs and have to take what is sent them regardless of the quality of the goods, which are in turn sent out to the poor consumers who have to stand by the inferior groceries. Owing to the Janesville Wholesale Grocery Co., this is not the case in this city. Janesville is indeed fortunate in having a firm like this located here.

Match the Occasion.

"Why did you smile when I told you Gussie was going to celebrate her wedding?" "I couldn't help thinking how well Gussie's husband would match the occasion."

An Evident Success.

"So you have a position as stenographer. I hope you will succeed in making yourself indispensable to your employer." "I think I have, ammie. We are to be married next month."

Our guarantee of satisfaction really means that every suit you buy must satisfy you.

There is no limit to that guarantee except the limit of your satisfaction. You know what satisfies you, and whatever you want we will give you. We judge by your ideas—not ours. We insist upon assuming the responsibility for your satisfaction from the minute you receive a suit until your profitable experience prompts you to entrust your appearance to us once more.

You cannot get anything from us but good All-Wool fabrics. The careful manner in which we tailor, demands materials of the best quality. Your requirements can't be too exacting for our tailors. If a coat front should show the least sign of breaking or lose its original good shape, we want to replace it. The linings, too, are guaranteed to wear as long as the cloth, or we will refurnish garments returned to us. Your satisfaction is our success. That's why we prefer to have a suit returned rather than have it retained if it does not reflect credit upon you and us.

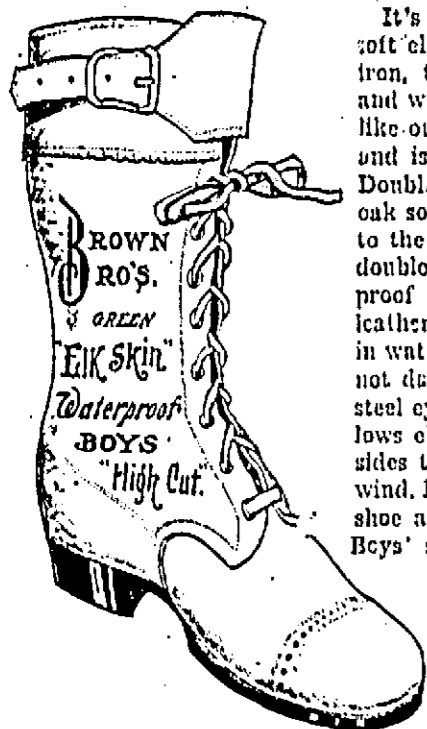

Doesn't such a guarantee mean something to you?

There Is Genuine Economy In Buying Viking Clothes for Boys

There are some facts about Viking Clothes which every mother of a Janesville boy ought to know. It ought to be generally known that the boy who puts on a Viking suit will look better and more manly than the boy who wears ordinary clothing. This is so because Viking clothes are specially designed to get breadth of shoulder, flat collars and lapels that fit snugly, sleeves that are plenty long enough. It is so because there is more put into Viking clothes than is usually put into clothes for boys of equal age. It ought to be generally known that this clothing will wear longer than ordinary clothes for boys. This is so because of the good fabrics and because of the good tailor work which sees to it that the clothing is as well made on the inside as it is on the outside, so that it will hold its shape, so that the seams will never pull part, so that the wear will be long and satisfactory. It ought to be generally known that this better-than-usual clothing for boys costs as little or less than clothing of the ordinary sorts. These things are important to Janesville mothers. They lift Viking clothes for boys to a plane alone—making them better than the clothes you can buy usually. The fall and winter stocks are the broadest we ever had and the best. Come in and see them tomorrow.

Boys' Viking suits at \$5.00 have two pairs of knicker pants. We have other Viking suits at \$6.00, \$7.50 and \$8.00.

Biggest Rug in Masonic Lodge.
The largest rug in the world, so I was told by a friend of mine in New York, is in the grand lodge room of the Masonic temple in that city," said L. B. Wrisley of New Orleans at the National. "I saw it, and I'm inclined to accept his statement. It is in one piece, and is about sixty feet square, although I am not exactly certain about the dimensions. The rug was made in Austria and was completed within two months after it was ordered. I am no judge of rugs, but it seemed to me to be a magnificent piece of work. How they ever got such an enormous affair through the streets is more than I can explain. It is too heavy to have been folded."—Washington Post.

Custom Based on Reason.

On the approach of a thunderstorm French peasants often make up a very smelly fire, in the belief that safety from lightning is thus assured. By some this is deemed superstition, but the custom is based on reason, inasmuch as the smoke acts as a good conductor for carrying away the electricity.

Danger in Raw Food.
Pennsylvania's health commissioner, Dr. Dixon, is a vigilant official whose warnings are many but sensible. In discussing the necessity of taking every precaution to guard against typhoid fever and other communicable diseases, Dr. Dixon said recently: "There is no shutting our eyes to the danger of eating unwashed raw fruit. Food infected with typhoid fever by flies caused many deaths among our soldiers during the late Spanish-American war. The time and energy necessary to wash raw fruit is a bagatelle alongside of a case of typhoid fever." It is well to be wise in such a matter before trouble comes, and not after. That typhoid fever infection has been spread by the infection of articles of diet eaten raw is a matter of record in this region as well as elsewhere, and it is better to be too fussy than too careless in such a matter.—Springfield Republican.

PIE EATING EXHIBITION IN DISPLAY WINDOW

UNIQUE AND INTERESTING DISPLAY SHOWS SPIRIT OF "MADE IN JANESVILLE" WEEK IS CONTAGIOUS.

A most interesting display, one that causes passersby to pause and exclaim aloud, is being shown evenings, during the "Made in Janesville" week, at the Theatre Cafe on East Milwaukee St. It has been conservatively estimated that 50 pies are being turned out each time the exhibition is given, which time is from 8 until 9 o'clock each evening. It will continue for the balance of the week.

This exhibition is not down on the regular list of displays for "Janesville Made Goods" and goes to show that the "Hoosier" movement is catching hold and spreading.

This display is conducted by Monroe Arnold.

OKLAHOMA BANK DEPOSITS OFF

Last Two Reports Show Decrease

Under State Guaranty Law.

Guthrie, Okla., Sept. 29.—The con-

solidated report compiled by Bank

Commissioner E. H. Cockrell from

reports of the condition of Oklahoma

state banks on September 1 shows a

decrease both in the number of banks

and in deposits since the last previous

statement made on June 30, 1910.

The total number of banks has de-

creased from 691 to 687 and the total

individual deposits have decreased

from \$45,481,550.85 to \$45,092,999.47.

This decrease is not quite as great,

however, as in the period from Janu-

ary 31 to June 30, 1910, when the

deposits showed a shrinkage of \$4,

447,103.10.

The last two reports are the only

ones since the adoption of the bank

guaranty law which have shown a de-

crease in deposits, and the present

report is the first to show a decrease

in the number of banks.

PRIVATE SERVICES

FOR MRS. LOVELACE

Funeral Will Be Held Friday Morning

at Eleven O'clock From Home

of Mrs. J. J. Callison.

Mrs. Martha Jane Lovelace, a res-

ident of Wisconsin for forty years, who

has made her home in this city for

about thirty years, died of heart

trouble yesterday morning at the

home of her daughter, Mrs. J. J. Call-

ison, 46 South Third street. She had

been ill five weeks. Martha Jane

Taylor Lovelace was born in North-

east Pennsylvania, July 17, 1825. She

was married to Calvin S. Lovelace at

Albany in 1851 and they lived in Juda

and Monroe for five years. They

moved to Grant City, Mo., where Mr.

Lovelace died in 1879. In 1880 Mrs.

Lovelace returned to Wisconsin mak-

ing her home in Whitewater. A year

or so after her return to this state,

she came to Janesville, where she has

since resided. One sister, Mrs. G. C.

Roberts of Evansville, and three chil-

dren: Mrs. J. J. Callison of this city;

George H. Lovelace of Centralia, Ill.;

and Mrs. C. W. Reynolds of Minne-

apolis, Minn., are the surviving rela-

tives. Mrs. Lovelace was a woman of

noble Christian character, a dutiful

wife and a kind and loving mother.

She has many friends in this city who

mourn her demise.

Funeral services will be held Friday

morning at eleven o'clock from the

home of her daughter, 46 South Third

street, and interment will be made at

Milton Junction. Services and burial

will be private.

MANY FISH WILL BE

KILLED IN SLOUGHS

Janesville Sportmen Worried Over

the Low Water at Koshkonong

and in the River.

It is the fear of many local anglers

that there will be untold loss of fish

during the coming winter in the shal-

low sloughs and small lakes of Wis-

consin that have been cut off from

the rivers because of the low stage

of water. It is said that in many of

these sloughs that ordinarily connect

with rivers and lakes, the waters in

no more than two or three feet deep,

severely dry enough to give the fish

protection even at this season of the

year. Those who have looked into

the matter state that many of these

places are literally alive with game

and other kind of fish that most cer-

tainly perish if there is not sufficient

rise in the waters to give them a

chance to escape before freezing

weather closes the inlets.

Bullheads and catfish will be able

to get through the winter all right,

but other classes do not bury in the

mud like these, and would surely

perish, according to those who have

given the matter thought.

As Koshkonong is also very low and

the river below the normal it is ex-

pected that the fish that have been

living in the sloughs will also suffer.

However, should there be a period of

calm and high water before freezing

this will be averted.
